

PASTIS - BRIOTTET

PRODUIT

Briottet pastis, if it is indeed a new addition to their range, could marry the artisanal elegance of Dijon with the freshness of Provence. Imagine a pastis where anise is subtly mastered, injected with liqueur-like expertise. At 40-45% alcohol, it would be enjoyed over ice, diluted with water to reveal its aromas. A product different from the classics of the south—a Briottet twist, tender, balanced, to offer to lovers of aniseed aperitifs looking for a softer and more refined French nuance.
