

BOURGEON DE SAPIN

PRODUIT

Here's a truly original spirit: Bourgeon de Sapin by Mettè, a liqueur distilled from spring fir buds. It's a real walk in the forest in a bottle—fresh and lemony on the nose, a burst of pine and menthol on the palate, with a long, invigorating finish. Serve around 13°C in a tulip glass, as a neat digestif or as a refined touch on a lemon sorbet.
