

CHÂTEAU HAUT-BRION

PRODUIT

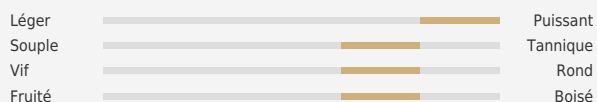

Overview

The 2021 Château Haut-Brion is one of the greatest expressions of the Pessac-Léognan terroir, produced by one of the most iconic Bordeaux estates. Made from a blend of approximately 50% Merlot, 38% Cabernet Sauvignon, and 12% Cabernet Franc, this cuvée embodies the subtle balance between power and finesse. The 2021 vintage, although marked by a demanding climate, reveals a wine of exceptional elegance, ripe without excess, and with a controlled structure. The vineyard, planted on gravelly soils resting on faluns, gives the wine a rare minerality and refinement: a grand cru that combines tradition and modernity.

Tasting

The color is a deep and intense purple. The nose unfolds elegant aromas of ripe blackcurrant, wild blackberry, cedar, blond tobacco, graphite, and black licorice, accompanied by a very characteristic smoky touch. On the palate, the attack is precise and velvety, the tannins are fine but present, the structure is dense without being heavy, and the acidity brings a nice tension. The finish is long, airy, and saline, demonstrating great aging potential. This is an exceptional wine: it can begin to be enjoyed from 2030-2032, with the potential to age until 2050 or even beyond.

PROFIL GUSTATIF

NOTATIONS

Robert Parker : 96-98/100
