

RIESLING "PATIENCE" 0,375 L

PRODUIT

The 1996 Riesling Patience half-bottle (0.375 L) from Famille Hugel is an exceptional cuvée produced only in the best vintages and limited to only 150 bottles worldwide. This rare wine is made from overripe grapes often affected by noble rot botrytis cinerea, which gives it a unique aromatic richness and exceptional aging potential. Its golden color with green highlights announces a wine of great finesse. On the nose, it reveals a complex bouquet of ripe fruit, apricot, peach, honey, candied citrus, enriched with delicate mineral notes. On the palate, the texture is creamy, supported by a perfectly integrated acidity that balances the generosity for a long, elegant finish of rare persistence. This Riesling Patience embodies the philosophy of time and patience dear to the Hugel house and is ideally enjoyed as an aperitif or accompanied by refined dishes such as foie gras, mature cheeses, or fruity desserts. A work of art for collectors and discerning enthusiasts, a symbol of excellence and ancestral know-how.
